OASIS

Comfort and Luxury Redefined. Discover the OASIS, a luxurious three-season composite wood pool house that transcends its original purpose as mere storage for gardening tools. This modern structure has become an essential extension of your home, blending functionality with stunning aesthetics. Far more affordable than conventional home additions, the OASIS offers a dynamic outdoor living space. Whether it's a cozy living room, an intimate mini bar with a dining area, a welcoming guest room, a private home theater, a personal gym, or a tranquil relaxation nook, this pool house transforms your backyard into a distinctive retreat.

Aesthetics and Impeccable Design. The OASIS is crafted with unparalleled precision, featuring elegant sliding double patio doors with screens and a rear sliding window to enhance airflow. It also includes fully integrated gutters designed not only to offer a sleek finish but also to efficiently manage water flow, protecting the structure and its surroundings during adverse weather. Available in two trendy colors, Pure White and Black, the OASIS allows for personalization with reversible boards. This feature provides the flexibility to customize the aesthetic to your preference, ensuring that your space not only meets but exceeds your style expectations.

Sturdy structure and timeless materials. Built to last, our engineers have designed the OASIS to withstand the harsh weather conditions of North America. In addition to its impeccable aesthetics, the Oasis benefits from the PROSHIELD PREMIUM protection, and powder coated aluminum structure. This pool house comes with a 10-year warranty thus testifying to the solidity of its design and high-quality materials.

PROSHIELD PREMIUM protection:

- ✓ Resistant to rot and mold;
- ✓ Insect-proof, fungus-resistant, shock-resistant, and stain-resistant;

GUTTER SYSTEM

- ✓ Rot-proof boards, therefore, insensitive to moisture, rays, and temperature changes

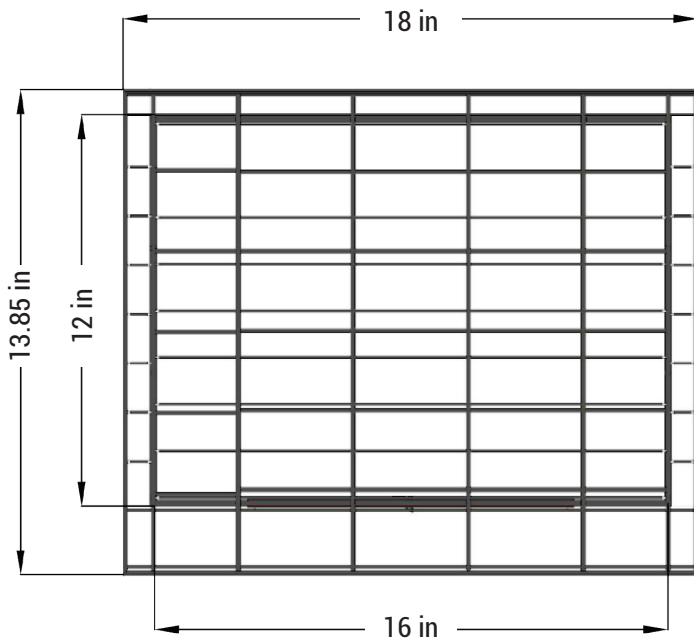

Safety Features. The OASIS is equipped with lockable patio doors and thermal panels made of tempered glass, enhancing safety by mitigating potential injuries from breakages.

Installation and Maintenance Simplicity. This FIBERWOOD pool house features a modular design that eliminates the need for adjustments or cuts, streamlining the assembly process. With basic tools, two workers can complete the setup in just one day. The shed should be installed on a solid, leveled base such as a concrete slab, asphalt driveway, interlocking pavers, or a wood or composite deck, offering multiple options to suit your needs.

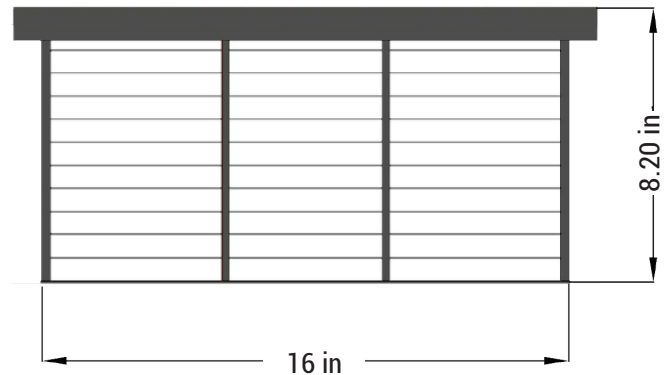

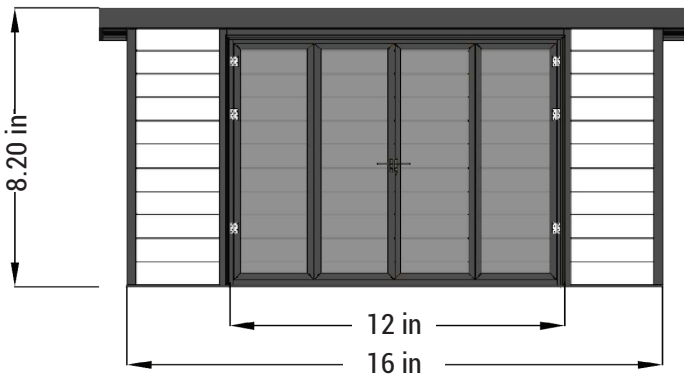

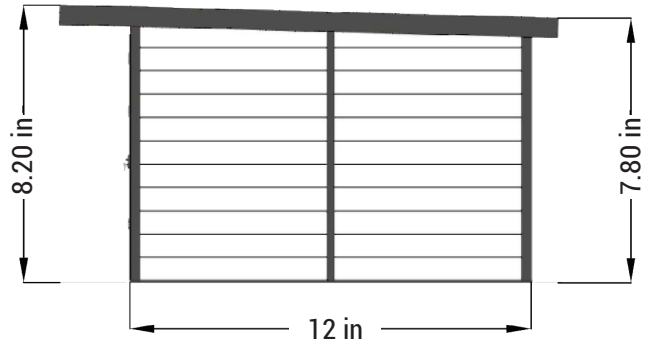

Clear Instructions and Low Maintenance. The assembly instructions are bilingual, straightforward, and easy to follow. Maintenance is minimal, as the shed requires no oil, paint, or stain over time, ensuring lasting durability and ease of upkeep.

Choose OASIS and transform your outdoor area into a haven of luxury and comfort, all while enjoying peace of mind with our robust safety features and easy upkeep. Embrace a smarter way to expand your living space –choose OASIS, where elegance meets practicality.

PROTECTION OPTIMALE PROSHIELD PREMIUM®

Nos planches en composite de bois FIBERWOOD bénéficient de l'excellente protection PROSHIELD PREMIUM®. Cette couche protectrice recouvre les planches sur les quatre faces et offre une protection ultime contre les taches, les chocs, les insectes, les rayures et contre les rayons UV responsables de la décoloration des planches.

Grâce à notre technologie de fabrication avancée en composite de bois, ces cabanons offrent une longévité de vie remarquable leur permettant de préserver leur beauté éclatante au fil du temps. Tous les cabanons de Fiberwood bénéficient d'une garantie de 10 ans.

UN PRODUIT 100% ÉCO-RESPONSABLE

Selon les statistiques, environ 1 million de bouteilles en plastique sont consommées chaque minute dans le monde. Nos planches de composite de bois FIBERWOOD offrent une solution concrète à ce problème crucial. Fabriquées à partir de 90% de particules de bois et de plastique recyclés, nos planches en composite de bois FIBERWOOD sont respectueuses de l'environnement. Chaque planche contribue à réduire les déchets plastiques et à préserver les ressources forestières.

Ce produit écologique est recyclable à 100%. La planche de FIBERWOOD peut être transformée en nouveaux matériaux, évitant son accumulation dans les décharges. Choisissez FIBERWOOD pour un mode de vie plus éco-responsable. Ensemble, construisons un avenir meilleur, une planche à la fois.
